

be exact. The pieces are formed and bent into shape. Some pieces are connected to each other with #10 stick welding rods. High quality bolts, self-locking nuts and top quality nylon bushings are used. Each part is measure to blue print standard, examined and tested for quality assurance. Each step of the assembly is double-checked to be in exact specification of blue print design.

IX. Oath

State of Kansas	Application Number	Confirmation No.
County of Neosho	10/799,985	8789
	Filing date 03/12/2004	Name-Jim Davis

I, James Davis, Jr., being duly sworn, depose and say that I am a citizen of Kansas, and resident of Chanute, Kansas, United States of America, declare that my residence, post office and citizenship are as stated below next to my name; that I truly believe myself to be the original, first and sole inventor of the new and distinct variety of alignment brackets described and claimed in the foregoing specification; that I have asexually reproduced such new and distinct variety; that I do not know and do not believe that the same was ever known or used in the United States of America before my invention thereof, or more than one year prior to this application, that such invention has not been patented or made the subject of an inventor's certificate issued in any country foreign to the United States of America on an application filed by me or my legal representatives or assigns more than 12 months prior to this application; that I acknowledge my duty to disclose information of which I am aware which is material to the examination of the application, and that no application for patent or inventor's certificate on such new and distinct variety of plant has been filed by or my representatives or assigns in any country foreign to the United States of America

I, James Davis, Jr. do further declare that all statements made herein of my own knowledge are true and that all statements made on information

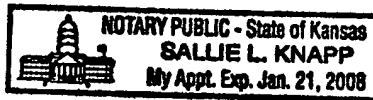

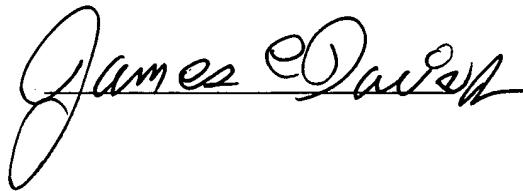

and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or an patent issuing thereon.

James Davis, Jr.
